Nuclear Skills 2019, organised by the Nuclear Skills Strategy Group (NSSG), will bring together nuclear employers, partners and Government on the skills agenda and, for the first time, will present a holistic and integrated programme on both nuclear skills and skills for nuclear, demonstrating industry leadership and collaborative thinking to meet the current and emerging skills challenge.

The conference comes at an exciting time for the nuclear industry and reflects the joined-up approach between industry and Government as set out in the recent Nuclear Sector Deal, to build a world class, expert and sustainable workforce here in the UK.

On the evening of the conference, there will also be the renowned UK Nuclear Skills Awards Dinner. This evening, will once again, recognise the significant achievements of today's talent in the nuclear industry*.

About the day

The purpose of Nuclear Skills 2019 is to provide an opportunity to share good practice in tackling some of the leading issues facing the nuclear industry. Delegates will hear from NSSG member companies and other experts, on what the industry is doing to ensure it is equipped to tackle all aspects of the skills challenge. It will demonstrate how national leadership is being applied to a UK strategic sector of national importance in relation to energy (current operations and new build) and defence as well as the decommissioning portfolio.

Who should attend?

The event will attract individuals and organisations that are set to play a key role in meeting the skills challenges brought about by a combination of major projects across the sector including the continued decommissioning nuclear facilities, building and operating the next generation of nuclear power stations and the defence skills challenge. This will include CEOs and Board members, HR Directors and Managers, Training Managers, Apprentices/ Graduates, Government representatives and officials, and individuals from across the nuclear sector's training infrastructure. Nuclear Skills 2019 is a free to attend event open to the whole industry and beyond.

nucskills19.eventbrite.com

Why sponsor?

This conference will be of value to exhibitors, it will:

- › Significantly support the development and maintenance of skills in the nuclear industry
- › Set out the joint approach developed within the Nuclear Sector Deal
- › Showcase the activity of the sector is undertaking to attract and retain skills relevant to the sector, retain fragile skills and increase diversity
- › Provide the opportunity to demonstrate a transferable curriculum and qualifications, training Standards and Career Pathways
- › Make the case for mobility and transferability to increase diversity of thought
- › Give a high profile showcase to good practice in HR, training and development
- › Explore the international dimension and opportunities this brings
- › Cement key sponsors' position as a leader in the industry
- › Provide the opportunity to showcase thought leadership by addressing an audience of key decision makers.

Principles for Exhibiting at Nuclear Skills 2019

The NSSG Nuclear Skills 2019 panel are asking exhibitors to reflect one or more of the five skills themes of the Nuclear Sector Deal:

- › **Enhanced Skills Leadership:** examples of sector collaboration to meet the skills challenge
- › **Exciting the Next Generation:** Attraction and ED&I activities, role models, solutions
- › **Staying at the Cutting Edge:** Growing our Subject Matter Experts – high level training, mentoring, university links
- › **Local Apprenticeships:** employer/ college programmes, accreditation, group schemes
- › **Facilitating Knowledge Transfer:** bringing individuals from other sectors, training programmes, learning and development schemes
- › **We also welcome exhibitors who reflect the importance of Place in the Sector Deal** – and we are planning to have regional zones

We would appreciate it if exhibitors presented their products and services in a way that is pertinent to this sector-wide ambition.

£1000
+ vat

"We face an unprecedented demand for people with the right skills to support the nuclear sector, and the NSSG is committed to working collaboratively within and outside the nuclear sector to address the challenge we face. This conference will highlight the powerful cross-sector working that exists across the industry, together with the additional skills requirements we face to bring in new talent, create diversity in thought leadership and support individuals throughout their careers in our industry."

Dr Fiona Rayment OBE, Executive Director Nuclear Innovation and Research Office (National Nuclear Laboratory) and Chair of the Nuclear Skills Strategy Group (NSSG)
